VISION-NEX
Patented 3-D Animated Scoring

When new features and requests from bowling centers around the world are implemented, you can be rest assured these new features will be added to your system - free of charge!

Steltronic

USBC National Tournaments

When the USBC went shopping for a professional scoring system in 2008, they selected... Steltronic Focus!

From 2009 through 2015, the Steltronic Focus-NEX scoring system was in use at the USBC Women's Championship tournaments in the big cities of Las Vegas, Reno, El Paso, and Syracuse.

For each of these years, the Steltronic developers worked on extra requirements from the USBC Information Technology (IT)

department. The result was many successful squads of bowling during the tournaments, with all of the scores being displayed on the world's largest portable electronic displays and also displayed at the National Bowling Stadium in Reno Nevada.

Another specialized interface created by the expert developers at Steltronic!

Player	1	2	3	4	5	6	7	8	9	10	TOTAL			
7 Amy Mendez										70	0	0	70
